Providence Township Parks and Recreation Meeting

The meeting opened with a discussion concerning planting trees/ shrubs in the two 90'x7' sections at the Fairview parking area. Brian will contact Sean Smith to see if he is interested in being of help with the project. Greg will contact Octoraro Nursery for information on trees, shrubs and prices.

Discussion concerning whether or not there will be adequate parking at Fairview during high usage times included suggestions to get Quarryville Borough involved to develop some parking areas in the borough adjacent to the trail. Possible contact person is Frank Abel.

Brian reported two citizen complaints:

There is a tree stand on the south side of the trail east of Fairview.

There is a dump west of Fairview on the south side of the trail.

Vicki reported that there will be a signage meeting at the Providence Township Municipal Building at 7:15 on April 14th.

Surveyors are currently working on marker settings in wooded areas while trees are still leafless.

The majority of the townships have agreed to use Wilson Consulting Group.
